

## Introduction

FreedomCoin™ Exchange is currently more of a brokerage integrated with Offshore Partners. FreedomCoin mission is to become a cryptocurrency exchange that features decentralized cryptocurrencies that can be utilized for everyday transactions and an accepted method of payment on businesses websites. Most cryptocurrencies derive their perceived value strictly based on speculation by trading one cryptocurrency for another cryptocurrency, most cryptocurrencies value as a currency is nonexistent. FreedomCoin™ Exchange will allow cryptocurrencies to be utilized as money to purchase products and services within the FreedomMarket.

1. FreedomCoin™ Exchange is part of [www.Freedom.social](http://www.Freedom.social).
2. [www.Freedom.social](http://www.Freedom.social) is a patriotic Truth Seekers and Activists platform and a platform for Independent Media to broadcast live utilizing IPTV and WebRTC, and upload video and post articles. FreedomCoin Exchange compensates Independent Media and all end users to post, like and share content in other platforms. Freedom.social and [www.FreedomTube.social](http://www.FreedomTube.social) are partnering with many YouTube channels and independent media outlets to promote Freedom to their combined millions of subscribers and hundreds of millions of views.
3. Minuteman Reserve (MMR) is a new decentralized Ethereum cryptocurrency featured in the FreedomCoin Exchange and the FreedomMarket located at [www.FreedomMarket.social](http://www.FreedomMarket.social). FreedomMarket establishes marketplaces where local market places can be created and products and services can be bought and sold locally, as well as listed and sold worldwide. MMR will be utilized as money from day one with end users being able to purchase products and services on FreedomMarket. MMR Smart Contracts are created between sellers and buyers on FreedomMarket utilizing the Ethereum blockchain.
4. Minuteman Reserve (MMR) can be purchased by paying by eCheck or by trading Bitcoin or Ether within the FreedomCoin™ Exchange by creating an account at [www.Freedom.social](http://www.Freedom.social)

The logo for Minuteman Reserve (MMR) features a circular emblem with a Minuteman soldier's head and shoulders, set against a background of stars and stripes. The word "RESERVE" is written in a banner across the bottom of the emblem.

The original Bitcoin open source code is the basis for all cryptocurrencies. Layers are built on top of the original Bitcoin code to create innovative solutions. MMR is based on the Ethereum blockchain technology, here is a link to the Ethereum white paper: <https://github.com/ethereum/wiki/wiki/White-Paper#ethereum>.

MMR choose not to focus on creating new layers, MMR provides a real-world solution to conduct commerce, which is built into a platform in which the currency will be exposed to millions of people on a daily basis.

MMR is decentralized. Freedom Currency Inc. was approached anonymously within a cryptocurrency forum and was offered a proposition by an anonymous person to build the perfect decentralized cryptocurrency for the [www.Freedom.social](http://www.Freedom.social) platform and the [www.FreedomMarket.social](http://www.FreedomMarket.social) marketplace. The team at Freedom Currency Inc. to this day do not know who the creator of MMR is, and that is just fine with us. Freedom Currency Inc. does own a sizable share of MMR and the creator retained a respectable share of MMR.

Freedom Currency Inc. is a team of experienced, motivated and technically savvy entrepreneurs who see a worldwide currency crisis fast approaching. Combined, Freedom.social, FreedomMarket and MMR provide local and worldwide ecosystem solution for commerce by MMR being utilized as currency within real-world transactions using MMR as money with the use of smart contracts within the Ethereum blockchain technology.

## About

# FreedomCoin™ Exchange

FreedomCoin™ Exchange mission is to become a cryptocurrency exchange that features “decentralized” cryptocurrencies that can be utilized for everyday transactions and an accepted method of payment on businesses websites.

FreedomCoin™ Exchange is not yet a fully functional traditional cryptocurrency exchange. FreedomCoin™ Exchange does have plans to become a fully functional legally operated offshore cryptocurrency exchange.

FreedomCoin™ Exchange features decentralized digital currencies on FreedomCoin™ Exchange and FreedomMarket. FreedomCoin™ Exchange currently utilizes Offshore Digital Currency Exchanges, Offshore Payment Processors, and Offshore Banks to feature Digital Currencies and to conduct transaction purchases of Digital Currencies, (all collectively referred to as “Offshore Partners”).

FreedomCoin™ Exchange is registered with FinCEN and has created Anti-Money Laundering (AML) and Know Your Customer (KYC) polices. FreedomCoin™ Exchange, by law collects, records, and sometimes verifies End User name, address and telephone number and End User identification, and in some cases FreedomCoin is required to undertake even more stringent identification measures.

FreedomCoin™ Exchange provides the delivery, communication, and network data access services to purchase Digital Currency from Offshore Partners. FreedomCoin™ Exchange only allows payment directly to Offshore Partners, the direct seller of Digital Currencies offered by FreedomCoin™ Exchange are those which the buyer makes payment directly to Offshore Partners. FreedomCoin™ Exchange does not transfer funds between a buyer and transfer to a third party that is not part of the transaction.
